DIAGNOSIS

INDICES to Vol. 17 (1976)

January March May July September November

Contents of Volume 17 — DIAGNOSIS

Spinal cord vascularity—I—Extraspinal sources of spinal cord arteries in man
L. TVETEN 1
Secretin and epinephrine combined in celiac angiography
R. UDÉN 17
Hepatography with intravenously injected emulsified iodolipids
A. PINET, V. TRAN MINH, M. BOUCHERAT, A. DUBREUIL and J. P. MAGIS 41
Hepatosplenography by intravenous injection of a new iodized oily emulsion
M. LAVAL-JEANTET, J. L. LAMARQUE, P. DREUX, A. M. LAVAL-JEANTET and J. LAUNAY 49
Hemangioma of the liver—Report of two cases
J. TH. JENSEN and T. KLINGE 61
Coronary angiography with diatrizoate and metrizamide—Comparison of ionic and non-ionic contrast medium effect on coronary blood flow in dogs
B. TRÄGÅRDH, P. LYNCH and MONIKA TRÄGÅRDH 69
Contrast media—Quantitative criteria for designing compounds with low toxicity
H. LEVITAN and S. I. RAPOPORT 81
Effect of epinephrine on the contractions in the normal renal pelvis in man—A cine-radiologic investigation
L. BJÖRK 93
Peritoneography in Spigelian hernias
T. SVAHN and L. SPANGEN 97
Photographic subtraction—II—Technical aspects and method
CH. HÅRDSTEDT, B. RUNDELIUS and U. WELANDER 101
Kinematic analysis of experimentally provoked scoliosis in pigs with roentgen stereo-photogrammetry
T. OLIN, T. H. OLSSON, G. SELVIK and S. WILLNER 107
Book review 128
Objective symmetry detector method for gammaencephalography—V—Variation in the subjective analysis of brain scintigrams
M. LIND 129
Experiments with a new contrast medium in myelography
L. BJÖRK, U. ERIKSON, B. INGELMAN and G. LINDBLAD 136
Adverse effects of lumbar myelography with Amipaque and Dimer-X
L. IRSTAM and ULLA SELLDÉN 145
Persistent hypoglossal artery, diagnostic criteria—Report of a case
J. BRISMAR 160
Spinal cord vascularity—II—Extraspinal sources of spinal cord arteries in the rat
L. TVETEN 167
Spontaneous carotid-cavernous fistulas—Phlebographic appearance and relation to thrombosis
GUDRUN BRISMAR and J. BRISMAR 180
Radiology for detecting brain tumor recurrences
G. SCHWARZ, H. SCHREYER and G. ARGYROPOULOS 193
Magnification angiography in the evaluation of transplanted kidneys
LEENA LAASONEN, J. EDGREN and T. MATTSSON 200
Vascular complications following needle puncture of the liver—Clinical angiography
C. HELLEKANT 209

Effects of emulsified iodo-lipids—A toxicologic investigation in the rabbit
C. Hellekant and T. Olin 223
Arthrography of the knee—II—Isolated and combined lesions
H. G. Ringertz 235
Radiographic measurements of the radio-carpal joint in normal adults
S. Friberg and B. Lundström 249
Spinal cord vascularity—III—The spinal cord arteries in man
L. Tveten 257
Complications of orbital and skull base phlebography
Gudrun Brismar, J. Brismar and S. Cronqvist 274
Angiographic diagnosis of telenagiectases with cavernous angioma of the posterior fossa
C. Diamond, A. Torvik and P. Amundsen 281
Objective symmetry detector method for gammaencephalography—VI—Comparison with subjective evaluation of brain scintigraphy
M. Lind 289
Selective intraarterial steroid injection in ulcerative colitis
K. Hiramatsu, H. Asakura and S. Baba 299
Spigelian hernia
P. M. Som, M. T. Khilnani, B. S. Wolf and S. L. Beranbaum 305
Repeat scintigraphy of the internal mammary lymph nodes in rabbits
K. Jonsson, N. O. Berg, T. Landberg, S.-E. Strand and Gudrun Svahn-Tapper . 313
Lymphangiographic criteria of metastases—An evaluation of patients with malignant testicular teratoma
J. Göthlin and K. Jonsson 321
Book review 328
Pharmacoangiography in experimental tumours—Evaluation of vasoactive drugs
L. Ekelund, J. Göthlin, N. Jonsson and H. O. Sjögren 329
Angiography in malignant and chronic inflammatory lesions of the gallbladder
J. Göthlin and H. Pettersson 343
Experimental evaluation of tube potential and contrast medium concentration for cholangiography
B. Lundström, A. Rydh and G. Wickman 353
Videodensitometry in the diagnosis of aortic incompetence
U. Erikson, L. Björk, I. Cullhed, Ebba Enghoff and G. Ruhn 361
Kinematic analysis of posterior spinal fusions in pigs
T. H. Olsson, G. Selvik and S. Willner 369
Spinal cord vascularity—IV—The spinal cord arteries in the rat
L. Tveten 385
Computer tomography of the neurocranium
B. Liliequist and Å. Forssell 399
Computer tomography in the evaluation of pulmonary asbestosis—Preliminary experiences with the EMI general purpose scanner
L. Kreel 405
Densitometric evaluation of lung aeration in chest films
G. Enhörning and B. Robertson 413
Pulmonary congestion in chronic heart disease—Radiologic, clinical and hemodynamic relationships
P. Stage, B. Movild, B. Hesse and E. Steinmetz 417

Visibility of the intrapericardiac segment of the ascending aorta on conventional lateral chest films
G. BERGSTRAND and A. SZAMOSI 425
Ionic composition and cardiotoxicity of dimeric contrast media at injection into the coronary arteries of rabbits
A. M. CARTER and T. OLIN 433
Effects on venous vasomotion from the ionic content of contrast agent solutions—An investigation on microcirculation in the bat wing
T. ALMÉN 439
Contrast media with and without calcium for cardioangiography in children
D. J. TAY, A. R. LEVIN, E. SCHUBERT and H. A. BALTAXE 449
Influence of the cation on the side-effects of urographic contrast media
S. G. DAHL, O. LINAKER, Å. MELLBYE and KARI SVEEN 461
Book review 472
Implantation metastasis after percutaneous transthoracic needle aspiration biopsy
W. N. SINNER and J. ZAJICEK 473
Multiple expanding renal lesions
O. OLSSON 481
Catheterization and angiography of the abdominal arteries in the guinea-pig
N. EGUND and T. OLIN 493
Hydro- and hemodynamic effects of catheterization of vessels—I—An experimental model
L. BJØRNØ and H. PETTERSSON 511
Kinematic analysis of posterolateral fusion in the lumbosacral spine
T. H. OLSSON, G. SELVIK and S. WILLNER 519
Chronic multifocal cleido-metaphyseal osteomyelitis of childhood—Report of a case
F. P. PROBST 531
Radiologic differentiation between cysts and malignant tumours of the maxilla
U. ERASMIE and M. HAVERLING 538
Simultaneous arthrography of the talocrural and talnavicular joints in children—I—Technique
B. SAHLSTEDT 545
Simultaneous arthrography of the talocrural and talonavicular joints in children—II—Comparison between anatomic and arthrographic measurements
Å. HJELMSTEDT and B. SAHLSTEDT 557
Normal width of cranial sutures in the neonate and infant—An objective method of assessment
U. ERASMIE and H. RINGERTZ 565
Angiography of omental cysts in a child
B. JACOBSSON, G. MELLGREN and G. REUTERSKIÖLD 573
Reaction of femoral and common carotid arteries in infants after puncture or percutaneous catheterization
K. BERGSTRÖM and H. JORULF 577
Angiography of the femoral artery following percutaneous catheterization in infants and children
W. MORTENSSON 581
Infantile cortical hyperostosis—Report of a case with late manifestation
I. CLAËSSON 594

Kidney size and growth in unilateral renal agenesis and in the remaining kidney following nephrectomy for Wilms' tumor
O. Eklöf and H. Ringertz 601
Mucosal folding in upper urinary pathways following ureterolithiasis
G. Theander and L. Wehlin 609
Kidney size in children—A method of assessment
O. Eklöf and H. Ringertz 617
Kidney size in children with unilateral urinary duplication
O. Eklöf, H. Ringertz and H. Tschäppeler 626
Lymphoid hyperplasia of the colon in childhood
G. Theander and B. Trägårdh 631
Intussusception in the newborn infant—Report of a case
H. Jorulf and G. Sedin 641
Heart volume and haematocrit value following aortopulmonary anastomosis in children with Fallot's anomaly
W. Mortensson, [illegible]R. Lundström and T. H. Olsson 645
Spinal cord vascularity—V—The venous drainage of the spinal cord in the rat
L. Tveten 653
Lymphatics of the diaphragm in the dog
O. Rivero and H. del [illegible] 663
Abnormal basal angle of [illegible] in sex chromosome aberrations
K. Rzymski and J. Kosowicz 669
Angiography in carcinoma of the renal pelvis and the ureter
L. Ekelund and J. Göthlin 676
Renal artery lesions after pyelolithotomy—A potential cause of renovascular hypertension
I. Andersson 685
Spontaneous portorenal shunting in portal hypertension assessed by a dye dilution technique
J. Göthlin 696
Hyoscine-n-butylbromide (Buscopan) as a duodenal relaxant in tubeless duodenography
G. Ayre-Smith 701
Gastric motility and empyting following parietal cell vagotomy and selective gastric vagotomy—Experimental investigation
Kirsten Mikkelsen, P. O. Eriksen and J. Boné 714
Xeroradiography and conventional radiography in examination of the larynx
A. Hemmingsson and P. O. Löfroth 723
Activation of the complement system by water-soluble contrast media—A preliminary report
M. Heideman, B. Jacobsson and N. Lindholm 733
Scintigraphy of pericardial effusion
O. Mattsson 737
Adverse effects of stationary grids
S. Reichmann and K.-G. Strid 741
Hydro- and hemodynamic effects of catheterization of vessels—II—Model experiments comparing circular and annular lumen area reduction
L. Bjørnø and H. Pettersson 749
Effect of vasopressin on human renal circulation investigated by angiography and a dye dilution technique
J. Göthlin 763

Catheter angiography and venous thrombosis
BRITT-MARIE WIDESTADH, S.-E. BERGENTZ and E. BOIJSEN 773
Estimation of coronary artery stenosis—Limitations of present methods
L. BJÖRK and A. O'KEEFE 777
Technique of coronary angiography
U. ERIKSON 781
Growth rate of renal carcinoma as demonstrated by repeat angiography
L. EKELUND and K. JONSSON 786
Nephroangiography in amyloidosis
Å. FORSSELL and B. ISAKSSON 797
Epinephrine in the angiographic evaluation of experimental kidney trauma
M. L. MOSS, C.-H. MENG and M. ELKIN 805
Complications of percutaneous transthoracic needle aspiration biopsy
W. N. SINNER 813
Pneumocystography of benign and malignant intracystic growths of the female breast
L. TABÁR and Z. PÉNTEK 829
Bone growth in the rabbit after irradiation
A. S. ARONSON, MONICA GUSTAFSSON and G. SELVIK 838
Radiologic aspects of BCG-osteomyelitis in infants and children
W. MORTENSSON, O. EKLÖF and H. JORULF 845
Pelvimetry in breech and cephalic presentation
S. LAURIN, V. HEGEDÜS and S. ZURBRIGGEN 856
Vertebral motion in spondylolisthesis
T. H. OLSSON, G. SELVIK and S. WILLNER 861
Radiographic measurements on the radio-carpal joint in distal radial fractures
S. FRIBERG and B. LUNDSTRÖM 869
Thromboresistance and stability of a heparinized polymer
M. HEIDEMAN, B. JACOBSSON and R. LARSSON 877
Double-lumen balloon catheter
R. JENSEN and T. OLIN 886
Book reviews 891

Subject index to Volume 17 — Diagnosis

ROENTGEN DIAGNOSIS

Nervous system

Extraspinal sources of spinal cord arteries in man 1
Variation in the subjective analysis of brain scintigrams 129
Experiments with a new contrast medium in myelography 136
Adverse effects of lumbar myelography with Amipaque and Dimer-X 145
Persistent hypoglossal artery, diagnostic criteria 160
Extraspinal sources of spinal cord arteries in the rat 167
Spontaneous carotid-cavernous fistulas—Phlebographic appearance 180
Radiology for detecting brain tumor recurrences 193
Spinal cord arteries in man 257
Complications of orbital and skull base phlebography 274
Teleangiectases with cavernous angioma of the posterior fossa 281
Objective symmetry detector method compared with subjective evaluation of brain scintigraphy 289
Spinal cord arteries in the rat 385
Computer tomography of the neurocranium 399
Normal width of cranial sutures in the neonate and infant 565
Venous drainage of the spinal cord in the rat 653
Abnormal basal angle of the skull in sex chromosome aberrations 669

Digestive tract (incl. biliary tract and spleen)

Hepatography with emulsified iodolipids 41
Hepatosplenography with iodized oily emulsion 49
Hemangioma of the liver 61
Peritoneography in Spigelian hernias 97
Vascular complications following needle puncture of the liver 209
Intraarterial steroid injection in ulcerative colitis 299
Spigelian hernia 305
Angiography in malignant and inflammatory lesions of the gallbladder 343
Tube potential and contrast medium concentration for cholangiography 353
Angiography of omental cysts in a child 573
Lymphoid hyperplasia of the colon 631
Intussusception in the newborn infant 641
Buscopan as a duodenal relaxant in duodenography 701
Gastric motility and empyting following parietal cell vagotomy and selective gastric vagotomy 714

Heart and Vessels (incl. lymphatic vessels)

Extraspinal sources of spinal cord arteries in man 1
Secretin and epinephrine combined in celiac angiography 17

Hemangioma of the liver 61
Coronary angiography with diatrizoate and metrizamide 69
Persistent hypoglossal artery, diagnostic criteria 160
Extraspinal sources of spinal cord arteries in the rat 167
Spontaneous carotid-cavernous fistulas—Phlebographic appearance 180
Radiology for detecting brain tumor recurrences 193
Magnification angiography in evaluation of transplanted kidneys 200
Vascular complications following needle puncture of the liver 209
Spinal cord arteries in man 257
Complications of orbital and skull base phlebography 274
Teleangiectases with cavernous angioma of the posterior fossa 281
Intraarterial steroid injection in ulcerative colitis 299
Scintigraphy of the internal mammary lymph nodes in rabbits 313
Lymphangiographic criteria of metastases from malignant testicular teratoma 321
Pharmacoangiography in experimental tumours 329
Angiography in malignant and inflammatory lesions of the gallbladder 343
Videodensitometry in the diagnosis of aortic incompetence 361
Spinal cord arteries in the rat 385
Intrapericardiac segment of ascending aorta on conventional chest films 425
Ionic composition and cardiotoxicity of dimeric contrast media at injection into the coronary arteries of rabbits 433
Effects on venous vasomotion from the ionic content of contrast agents in the bat wing 439
Contrast media with and without calcium for cardioangiography 449
Multiple expanding renal lesions 481
Angiography of the abdominal arteries in the guinea-pig 493
Hydro- and hemodynamic effects of catheterization of vessels—I 511
Angiography of omental cysts in a child 573
Reaction of femoral and common carotid arteries in infants after percutaneous catheterization 577
Angiography of the femoral artery following percutaneous catheterization 581
Heart volume and haematocrit value following aorto-pulmonary anastomosis in Fallot's anomaly 645
Venous drainage of the spinal cord in the rat 653
Lymphatics of the diaphragm in the dog 663
Angiography in carcinoma of renal pelvis and ureter 676
Renal artery lesions after pyelolithotomy 685
Spontaneous portorenal shunting in portal hypertension assessed by a dye dilution technique 696
Scintigraphy of pericardial effusion 737
Hydro- and hemodynamic effects of catheterization of vessels—II 749
Effect of vasopressin on human renal circulation 763
Catheter angiography and venous thrombosis 773
Estimation of coronary artery stenosis 777
Technique of coronary angiography 781
Growth rate of renal carcinoma 786
Nephroangiography in amyloidosis 797
Epinephrine in the angiographic evaluation of experimental kidney trauma 805
Double-lumen balloon catheter 886

Lung, Pleura, Mediastinum and Chest walls

Computer tomography in the evaluation of pulmonary asbestosis 405
Densitometric evaluation of lung aeration 413
Pulmonary congestion in chronic heart disease 417
Implantation metastasis after percutaneous biopsy 473
Complications of percutaneous transthoracic needle biopsy 813

Bones and Joints (incl. soft tissue)

Kinematic analysis of experimentally provoked scoliosis in pigs 107
Arthrography of the knee—II—Isolated and combined lesions 235
Measurements of the radio-carpal joint in normal adults 249
Kinematic analysis of posterior spinal fusions in pigs 369
Computer tomography of the neurocranium 399
Kinematic analysis of posterolateral fusion in the lumbosacral spine 519
Multifocal cleido-metaphyseal osteomyelitis of childhood 531
Differentiation between cysts and malignant tumours of the maxilla 538
Simultaneous arthrography of the talocrural and talonavicular joints in children—I—Technique 545
Simultaneous arthrography of the talocrural and talonavicular joints in children—II—Measurements 557
Normal width of cranial sutures in the neonate and infant 565
Infantile cortical hyperostosis—A case with late manifestation 594
Abnormal basal angle of the skull in sex chromosome aberrations 669
Pneumocystography of benign and malignant intracystic growths of the female breast 829
Bone growth in the rabbit after irradiation 838
Radiologic aspects of BCG-osteomyelitis in infants and children 845
Pelvimetry in breech and cephalic presentation 856
Vertebral motion in spondylolisthesis 861
Measurements on the radio-carpal joint in distal radial fractures 869

Ear, Nose and Throat

Differentiation between cysts and malignant tumours of the maxilla 538
Xeroradiography and conventional radiography in examination of the larynx 723

Ophthalmology

Complications of orbital and skull base phlebography 274

Uro-genital system

Effect of epinephrine on the contractions in the normal renal pelvis 93
Magnification angiography in evaluation of transplanted kidneys 200
Lymphangiographic criteria of metastases from malignant testicular teratoma 321
Influence of the cation on the side-effects of urographic contrast media 461
Multiple expanding renal lesions 481
Kidney size and growth in renal agenesis following nephrectomy for Wilms' tumor 601

Muscosal folding in upper urinary pathways 609
Kidney size in children—Method of assessment 617
Kidney size in children with unilateral urinary duplication 626
Angiography in carcinoma of renal pelvis and ureter 676
Renal artery lesions after pyelolithotomy 685
Effect of vasopressin on human renal circulation 763
Growth rate of renal carcinoma 786
Nephroangiography in amyloidosis 797
Epinephrine in the angiographic evaluation of experimental kidney trauma 805

ISOTOPES

Variation in the subjective analysis of brain scintigrams 129
Radiology for detecting brain tumor recurrences 193
Objective symmetry detector method compared with subjective evaluation of brain scintigraphy 289
Scintigraphy of the internal mammary lymph nodes in rabbits 313
Scintigraphy of pericardial effusion 737

TECHNIQUE

Photographic subtraction—II 101
Kinematic analysis of experimentally provoked scoliosis in pigs 107
Tube potential and contrast medium concentration for cholangiography 353
Videodensitometry in the diagnosis of aortic incompetence 361
Densitometric evaluation of lung aeration 413
Hydro- and hemodynamic effects of catheterization of vessels—I 511
Simultaneous arthrography of the talocrural and talonavicular joints in Children—I—Technique 545
Xeroradiography and conventionel radiography in examination of the larynx 723
Adverse effects of stationary grids 741
Technique of coronary angiography 781
Thromboresistance and stability of a heparinized polymer 877
Double-lumen balloon catheter 886

CONTRAST MEDIA

Hepatography with emulsified iodolipids 41
Hepatosplenography with an iodized oily emulsion 49
Coronary angiography with diatrizoate and metrizamide in dogs 69
Criteria for designing contrast media with low toxicity 81
Experiments with a new contrast medium in myelography 136
Adverse effects of lumbar myelography with Amipaque and Dimer-X 145
Effects of emulsified iodo-lipids in the rabbit 223
Ionic composition and cardiotoxicity of dimeric contrast media at injection into the coronary arteries of rabbits 433
Effects on venous vasomotion from the ionic content c ntrast agents in the bat wing 439

Contrast media with and without calcium for cardioangiography 449
Influence of the cation on the side-effects of urographic contrast media 461
Activation of the complement system by water-soluble contrast media 733

PEDIATRIC RADIOLOGY

Constrast media with and without calcium for cardioangiography 449
Multifocal cleido-metaphyseal osteomyelitis of childhood 531
Simultaneous arthrography of the talocrural and talonavicular joints in children—I—Technique 545
Simultaneous arthrography of the talocrural and talonavicular joints in children—II—Measurements 557
Normal width of cranial sutures in the neonate and infant 565
Angiography of omental cysts in a child 573
Reaction of femoral and common carotid arteries in infants after percutaneous catheterization 577
Angiography of the femoral artery following percutaneous catheterization 581
Infantile cortical hyperostosis—A case with late manifestation 594
Kidney size and growth in renal agenesis and following nephrectomy for Wilms' tumor 601
Mucosal folding in upper urinary pathways 609
Kidney size in children—Method of assessment 617
Kidney size in children with unilateral urinary duplication 626
Lymphoid hyperplasia of the colon 631
Intussusception in the newborn infant 641
Heart volume and haematocrit value following aorto-pulmonary anastomosis in Fallot's anomaly 645
Radiologic aspects of BCG-osteomyelitis in infants and children 845

BOOK REVIEWS

Untersuchungen zur Statik und Dynamik der kindlichen Halswirbelsäule 128
Röntgendiagnostik vizeraler Verletzungen nach stumpfem Abdominaltrauma 328
Röntgenologische Differentialdiagnostik 472
Die axiale Computer—Tomographie des Gehirnschädels 891
Computed tomography of the brain and orbit (EMI) scanning 878

List of Supplements to Acta Radiologica

Nos 190–353

(Issued November 1976)

For Suppl. Nos 1–189 inclusive, see list issued December 1960, in Vol. 54, fasc. 6.

The supplements are published from time to time and are not included in the subscription rate. Prices and year of publication of numbers already issued are detailed below.

190. RUNE SÖREMARK: Distribution and kinetics of bromide ions in the mammalian body. Some experimental investigations using Br^{80m} and Br^{82}. 1960. *Price Sw. Kr. 30.*
191. ULF BORELL and INGMAR FERNSTRÖM: Radiologic pelvimetry. 1970. *Price Sw. Kr. 30.*
192. NILS LINDVALL: Renal papillary necrosis. A roentgenographic study of 155 cases. 1960. **(Out of print.)**
193. PAUL EDHOLM: The tomogram. Its formation and content. 1960. **(Out of print.)**
194. RAIMO KIVILUOTO: Pleural calcification as a roentgenologic sign of non-occupational endemic anthophyllite asbestosis. (Mineralogic appendix by OLAVI KUOVO.) 1960. *Price Sw. Kr. 25.*
195. SVEN SCHELLER: Roentgenographic studies on epiphysial growth and ossification in the knee. 1960. *Price Sw. Kr. 35.*
196. K. A. HULTBORN and BO TÖRNBERG: Mammary carcinoma. The biologic character of mammary carcinoma studied in 517 cases by a new form of malignancy grading. 1960. *Price Sw. Kr. 35.*
197. LARS R. HOLSTI: The mitotic and radioprotective effect of cysteine and lysine in rat. 1960. *Price Sw. Kr. 30.*
198. OSBORNE BARTLEY: The isometric relaxation phase of the left ventricle. An electrokymographic study. 1960. *Price Sw. Kr. 35.*
199. GUNNAR WILLER VESTBY: Vaso-seminal vesiculography in hypertrophy and carcinoma of the prostate with special reference to the ejaculatory ducts. 1960. *Price Sw. Kr. 35.*
200. BJÖRN NORDENSTRÖM: Contrast examination of the cardiovascular system during increased intrabronchial pressure. 1960. *Price Sw. Kr. 30.*
201. GIOVANNI DI CHIRO: RISA encephalography and conventional neuroradiologic methods. A comparative study. 1961. *Price Sw. Kr. 35.*
202. LARS BJÖRK: Velopharyngeal function in connected speech. Studies using tomography and cineradiography synchronized with speech spectrography. 1961. *Price Sw. Kr. 25.*
203. BENGT O. NYLÉN: Cleft palate and speech. A surgical study including observations on velopharyngeal closure during connected speech, using synchronized cineradiography and sound spectrography. 1961. *Price Sw. Kr. 25.*
204. S. R. KJELLBERG, B. NORDENSTRÖM, U. RUDHE, V. O. BJÖRK and G. MALMSTRÖM: Cardioangiographic studies of the mitral and aortic valves. 1961. *Price Sw. Kr. 30.*
205. GUNNAR CARLBERGER: Kinetics and distribution of radioactive cobalt administered to the mammalian body. 1961. *Price Sw. Kr. 30.*
206. HANS MOËLL: Kidney size and its deviation from normal in acute renal failure. A roentgendiagnostic study. 1961. *Price Sw. Kr. 25.*
207. LEIF KULD HANSEN: Micturition cystourethrography with automatic serial exposures. An opinion on the value of the method. 1961. *Price Sw. Kr. 30.*
208. FINN LUNDWALL: Cancer of the vulva. A clinical review. 1961. *Price Sw. Kr. 30.*
209. ILMARI LINDGREN: Anatomical and roentgenologic studies of tuberculous infections in
